Greetings to Customers, Old and New

In presenting my 1926 Catalogue we wish to thank our Customers for their liberal patronage and the many kind letters of recommendation of Brown's Dahlias I have received the past season. I am looking forward with pleasure to your future orders.

This season offers you unexcelled values in Dahlias, of quality and distinction, which are 99% healthy and true to name. My stock is the finest I have ever grown. Not only have I tried out and added a number of novelties, but have one of the finest assortments of popular high-class standard varieties at a moderate price.

In looking through the following pages I wish to call special attention to Juelinor and Premier George Clemenceau. These Dahlias have attracted a great deal of attention the past season in my field.

Don't forget, Dear Friends, when you are gathering blooms this coming season, that opportunity is at your door, through which you can extend your own happiness and add to the joys of others. Give of your blooms generously, for flowers are such exquisite things, bearing such comforting messages to the souls of the tried and heavy hearted, that I believe it the sacred duty of every one who grows them to broadcast them into the barren spots around us and make happy every one we can.
I do not claim to be the world’s greatest Dahlia grower, for there are many good ones, but I do claim to be one of them.

Since I issued my 1925 Catalogue I have bought me a larger place where I can grow more Dahlias.

I want every Dahlia and flower lover to make me a visit in 1926 and see my Dahlias when they are in their beauty. I am on the west side of the Thames River, six miles north of New London and six miles south of Norwich.

Take trolley car and stop at my door.

My Business Method

This List Cancels All Previous Ones

I do not recommend planting in this climate until the latter part of May, and to insure a longer succession of bloom, planting should be extended until the latter part of June.

I start shipping about April 1st, and all orders are filled in rotation, as received, but if customers will kindly state at what time after that date they would like them, I will try and ship as near to that date as possible.

Any complaint must be made at once, and unsatisfactory tubers returned. All retail orders are sent Parcel Post, postage paid, if the order is paid in full. Otherwise they will be sent C. O. D.

All orders taken at the shows will be sent C. O. D. unless other arrangements made at time of placement of orders.

As the demand for some varieties often exceeds the supply, it will be well to order early and so avoid disappointment. It will also be well to name a second choice or state if I may substitute for any that I am sold out of.

Remittance should be made by P. O. Money Order, Bank Draft, Express Order, or sums for less than $1.00, Stamps will be accepted.

Errors, while my system for handling orders is as near perfect as possible, yet in the rush of business, errors are possible to occur, and I wish to be promptly notified of such, and I will at once make same satisfactory.

Always keep a copy of your order for comparison.

Names and Address. Please remember to write Name and Address plainly. Give State, City or Town, Number of Street and Post Office Box Number.

Cultural direction will be sent with bulbs.
A VIEW OF ONE OF MY BIRDS
INSTRUCTIONS—INFORMATION.

I Guarantee—All bulbs that I send out to grow if properly planted, and to be true to name.

All Bulbs that are Not Satisfactory to be Returned—When received, I will replace. Any bulb that fails to grow to be returned and I will replace, free, all bulbs received before June 1st. After June 1st, will replace the following year.

To those who are unacquainted with the different classes and varieties of Dahlias, I would suggest that such leave the selection to me. Send me the amount of money you wish to invest and in return I will send you those that will surely delight. Also my liberal filling of the order will be more than satisfactory.

Order Early—As orders are filled in rotation, ordering early will ensure the reservation of varieties that later may be sold out.

Substitution—Orders are filled with varieties called for, and unless substitution is asked, I never substitute.

Remittances—Should be made by Bank Draft, P. O. Money Order or Registered Letter. Postage Stamps accepted up to $2.00. Coin should not be sent by letter unless registered.

Errors—While my system for handling orders is as near perfect as possible, yet in the rush of business errors are possible to occur, and I wish to be promptly notified of such and will at once make same satisfactory. Keep copy of your order for comparison.

Name and Address—Remember to write your Name, Postoffice, County and State, also give Street No. or P. O. Box as plainly as possible.

Cultural Directions—Will in all cases accompany bulbs and plants.
Classification of Dahlias

As Adopted by the American Dahlia Society

Cactus Dahlias

a. True, fluted type: Flowers fully double; floral rays (petals) long, narrow, incurved or twisted, with sharp, divided, or fluted points and with revolute (rolled back) margins, forming, in the outer florets, a more or less perfect tube for more than half the length of the ray.

b. Hybrid cactus or semi-cactus type: Flowers fully double; floral rays short as compared with previous type, broad, flat, recurved or twisted, not sharply pointed, except when tips are divided (staghorn), margins only slightly revolute, and tubes of outer florets, if any less than half the length of the ray.

Decorative Dahlias

Double flowers, full to center in early season, flat rather than ball-shaped, with broad, flat, somewhat loosely arranged floral rays with broad points or rounded tips, which are straight or de-curved (turned down or back), not incurved, and with margins revolute if rolled at all.

Ball-Shaped Double Dahlias

a. Showtype: Double flowers, globular or ball-shaped, rather than broad or flat, full to center, showing regular spiral arrangement of florets; floral rays more or less quilled or markedly involute margins and rounded tips.

(The class called Fancy Dahlias is not recognized separately in this classification, but is included in sub-section A.)
b. Hybrid show, giant show or colossal type: Flowers fully double, broadly hemispherical to flatly globular in form, loosely built so spiral arrangements of florets is not immediately evident; floral rays broad heavy, cupped or quilled, with rounded tips and involute margins.

c. Pompon type: Shape and color may be same as A or B; but must be under two inches in diameter.

Pæony-flowered or "Art" Dahlias

Semi-double flowers, with open center, the inner floral rays being usually curled or twisted, the other or outer petals being either flat or more or less irregular.

Duplex Dahlias

Semi-double flowers, with center almost exposed on opening of bud, with petals in more than one row, more than 12, long and flat, or broad and rounded, not noticeably twisted or curled. Many so-called Pæony-flowered Dahlias belong here.

Single Dahlias

Open centered Dahlias, small to very large, with 8 to 12 floral rays, more or less in one circle, margins often decurved (turned down or back). There are no distinctions as to colors. The type embraces the large Twentieth Century, as well as small English varieties.

Collarette Dahlias

Single type: Open centered blossoms with not more than nine floral rays with one or more smaller rays, usually of a different color, from heart of each ray floret, making a collar.
Novelties

JUELIANOR. Hybrid Cactus. I am pleased to offer this new Dahlia for 1926. I believe it is the finest red and white Dahlia ever introduced. A perfect Dahlia, on long stems, as stiff as a cane. The blooms are large, often 10 inches, without disbudding, of a deep blood-red, tipped pure white. The petals are long and curl in a very attractive way.
Price ................................................................. $7.50

COLONEL LEDYARD. Peoney. A very large Dahlia, of a soft pink, overlaid at base of petals, a canary yellow. The stems are long and strong, and the bloom is very attractive.
Price ................................................................. $1.00

PREMIER GEORGE CLEMENCEAU. Hybrid Cactus. This new Dahlia I introduced in 1923, and it has been tried out nearly all over the United States, from the eastern states to the western, and nothing but praise have I heard for one of the most wonderful of all Dahlias. A perfect Hybrid Cactus, of a clear deep yellow at the base of petals, with balance of petals snowy white. The petals are long and curl in a most attractive manner. The large blooms are held aloft on long stems, and a very free bloomer.
Special price of .................................................. $5.00
New Dahlias Introduced in Recent Years

COMFORT. American Cactus. The best buttercup yellow cactus grown, of a clear buttercup yellow, on fine long stems. Price $1.00

CAPTAIN KIDD. Orchid Peonev. A wonderful new Dahlia of the orchid peoney type. The blooms are very large of a rich shade of purple, with a pure white stripe on each side of petal. Very showy, and a beauty. Price $2.00

EDWIN BROWN. Peonev. A monster of a Dahlia, of a wonderful coloring of cerise on the outer petals. Reverse side lavender, shaded with white. The petals are long and wavy, and curl in a most wonderful way. Price $1.00
**ETHERYN.** American Cactus. One of those shades of pink that everybody admires, a rich bright pink. The blooms are often eight inches in diameter without disbudding. On long stiff stem. Price .................. $1.00

![Etheryn]

**ETHERYN**

**NUBIA.** A Pompon Cactus of a rich purple, tipped white. Price .................. $0.50

**THE G. A. R.** Hybrid Cactus. The color of this new Dahlia is a brilliant deep scarlet; the giant blooms are a very heavy make-up. The petals curl and twist in a most attractive way. The stems are as stiff as a cane. Price .................. $3.50

**VEILIE.** Decorative. A deep orange in color, with a reverse of petals, a lighter shade. The petals turn and twist so the reverse shows the lighter shade. The giant blooms are very full and stand right up and look you in the face. Price .................. $2.50
THE ROBERT OGDEN FLETCHER. Hybrid Decorative. This wonderful new Dahlia I introduced in 1920, as a living monument to our brave young hero who, with his regiment, the 56th Artillery, lost his life at Chartreus, France.

This new Hybrid Decorative Dahlia is most beautiful, evenly variegated; the color is yellow at center, shading to white at tip, striped and flecked with red. It blooms very freely, has very large blooms, often nine inches in diameter, on extra long stem, well above the foliage.
Another year has more fully demonstrated the merits of the greatest of all Decorative Dahlias (see cut). The illustration will give a beautiful idea of it from the artistic light, but no conception of its wonderful color combination, great size, long stem, vigorous growth, rugged constitution, and last, but not least, its freedom of bloom.

The New York Floral Exchange says: "It is one of the best variegated Dahlias they have ever seen, and it took first prize at the New London County Fair, and special diploma for the best new Dahlia shown."

One person in admiring it had this to say about the color: "It is rightly named gold for patriotism, red for the blood of sacrifice and white for peace."

Price ............................................................... $1.00

SPECIAL NOTICE. I wish to warn the public to buy R. O. Fletcher from a reliable grower, as last year one of my competitors cut my price on it and a party bought it and it was not true to name. They got Verna Thompson.

A prize winner again in 1924 at the New York Dahlia Show and a certificate of merit at the Trial Ground of the American Dahlia Society at the Connecticut Agricultural Trial Ground in 1924. The most wonderful variegated Dahlia ever introduced.

QUEEN OF RED. Hybrid Decorative. Another Dahlia of great merit. A very free bloomer of giant blooms, often 10 inches in diameter, of a brilliant crimson, with the reverse lighter. The petals are long and twist at the tips, of course the stems are of the best.

Price ................................................................. $2.00
New Varieties for 1926
